Subject: Letter of Recommendation for Dr. Kamal Inamdar

Dear Dr. Young,

I was recently a student in Dr. Inamdar's Project Management certificate program at California State University, Dominguez Hills. Additionally, I have 30 years of Project and Business Management experience at a top 5 Aerospace and Defense contractor here in Southern California. I can attest to the fact that Dr. Inamdar's depth of knowledge and experienced based examples in this field are both relevant and accurate in aiding the student's comprehension of the subject matter at hand. He knows his material and presents it in a way such that others may understand it easily.

With that said, the distinguishing factor between Dr. Inamdar and other instructors that I have had is as follows: he genuinely cares about the success of his students and will go out of his way to ensure their success. This may mean explaining topics from multiple angles to aid the student in understanding the concepts all the way up to devoting his own personal time to help students prepare for certification exams. I was one such beneficiary of this generous help in preparing for my PMP exam.

In short, I wholeheartedly recommend Dr. Inamdar as an instructor for your program. He will definitely be an asset and the students will find him engaging.

Best Regards,
